

## “Chronic Care of Diabetes” CME AVAILABLE

The Kentucky Medical Association (KMA) has approved and released a home study CME program that is aimed at improving the care and outcome of patients with diabetes. The program, “*Chronic Care of Diabetes*,” includes two sections: “*Recommendations for Monitoring, Education, and Treatment*,” and “*Translating Recommendations into Clinical Practice*.”

### *Educational Objectives:*

Upon completion of this program, participants will be more knowledgeable about:

1. The American Diabetes Association standards of medical care in diabetes.
2. The tools and care processes available to improve ambulatory care of chronic illnesses.
3. The resources, tools, and care processes available to improve ambulatory care of diabetes.

### *Information on CME credit:*

The KMA designates this continuing medical education activity for a maximum of 3 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in this activity.

After completion of this program, participants must complete the self-assessment quiz and program evaluation forms provided with the program. These forms must be returned to the KMA to receive CME credit.

This CME program is intended for primary care physicians.

CME credit is available from January 1, 2007 through December 31, 2008.

### *Information on obtaining the CME program:*

This CME program is available in CD-ROM format. The CDs have been mailed to Kentucky primary care physicians.

In addition, the CME program is available on the KMA Website ([www.kyma.org](http://www.kyma.org)), and may be downloaded to your personal computer. Go to the Website, click on “CME” in the banner, and choose “Schedule of Events.” Locate the CME program under “Events,” and click on the indicated location to download the program in PDF format.
